

CHILD RIGHTS AND YOU

www.cry.org

We need YOU

to help us build a better future for India's children

What Is The Current Situation?

1 in every 4 children in India is out of school. Thousands of them cannot even write their own names.

Around 70% of children who enroll in school do not finish their education.

33 million children are engaged in child labour.

12 million children in India are married.

Every child has the right to education, proper health and nutrition, to be safe and protected and to thought & expression.

Together, we can change this situation and make a difference!

What We Do

Address the immediate and critical needs of children.

Influence the knowledge, attitudes and practices of parents which have an impact on children.

Build the capacity of service providers like teachers and Anganwadi workers.

Liaise with the government to facilitate the creation and implementation of child friendly policies.

Sensitize the public to create an ecosystem in which children are made a priority.

CRY - Child Rights and You - is an Indian NGO that believes in every child's right to a childhood to live, learn, grow and play.

For four decades, CRY and its partners have been working with parents and communities to ensure lasting change in the lives of more than 30,00,000 underprivileged children across states in India.
